Seasonal Position Available (May-August)

Positions Available: Conservation Internship

General Job Description: The primary duties will include assisting with forest inventory on public lands, boundary maintenance and summarizing data. Interns will also be asked to perform various conservation related tasks including basic inspections of invasive species treatments or conservation projects, develop brochures for District programs, filing and organizing, provide verification of potential invasive species, interact with the public, assist with the Agricultural Environmental Management Program, assist with the urban forestry program, conduct culvert assessments or other duties as assigned.

Typical Work Activities:

- Assist with planning and implementation of timber cruises and forest boundary maintenance
- Compile data
- Filing/Organizing
- Maintenance and inventory of equipment
- Development of District Brochures
- All other duties as assigned including work on various conservation projects

Knowledge, Skills, Abilities and Personal Characteristics:

- Forest mensuration, silviculture and dendrology (preferred, but not required)
- Forestland navigation
- GIS/GPS operation
- Good organizational skills
- Computer skills and use of Word documents such as Microsoft Publisher
- Ability and willingness to work in adverse weather conditions
- Ability to navigate uneven terrain

Minimum Qualifications:

Completion of junior year in natural resources management, forest resources management or other related curriculum. Candidates must possess a valid NYS Driver's License

Length of Employment and Pay Rate:

- May – August
- \$12.00-\$14.00/hr

To apply:

Send cover letter and resume to joe.chairvolotti@oswegosoilandwater.com or the following address by Friday, April 21, 2017:
