Seasonal Position Available (May-August)

Position Available: Forestry Internship

General Job Description: The primary duties will include forest inventory on public lands, boundary maintenance, summarizing data, and developing timber cruise and stand maps. Interns may also be asked to mark timber for harvest, perform basic checks of various conservation practices or invasive species treatments, provide verification of potential invasive species, interact with the public, conduct culvert assessments or other duties as assigned.

Typical Work Activities:

- Plan and implement timber cruises
- Compile data
- Forest property boundary maintenance
- Maintenance and inventory of equipment
- All other duties as assigned including work on various conservation projects

Knowledge, Skills, Abilities and Personal Characteristics:

- Forest mensuration, silviculture and dendrology
- Forestland navigation
- GIS/GPS operation
- Ability and willingness to work in inclement weather conditions and on uneven terrain

Minimum Qualifications:

Completion of junior year in a natural resources management, forest resources management or other related college curriculum. Also must have completed courses in dendrology, forest mensuration, silviculture, and GIS. Candidates must possess a valid NYS Driver's license.

Length of Employment and Pay Rate:

- May-August
- \$12.00-\$14.00/hr

To apply:

Send cover letter and resume to joe.chairvolotti@oswegosoilandwater.com or the following address by Friday, April 21, 2017:
